True/false statements

Read the rubric and the statements to familiarise yourself with the content of the text. Underline the key words in the statements and think of synonymous phrases. This will help you do the task.

1 a) Read the rubric, then read sentence 1. Look at the underlined words in the sentence, then look at the underlined words in the text. Is the sentence true or false?

You are going to read a text about the Olympic Games.

For questions 1-6, mark the statements T (true) or F (false).

- 1 The Summer Olympics happen every two years.
- 2 The Summer Olympics and the Winter Olympics take place in the same city.
- 3 Boxing is one of the first Olympic sports.
- 4 Usain Bolt has gold medals from the Paralympics.
- 5 The Winter Olympics has more sports than the Summer Olympics.
- 6 Russia has got very good ice hockey players.

The Olympic Games

The Olympic Games are the biggest and most famous sport event in the world. There are three kinds of Olympics – the Summer Olympics, the Paralympics and the Winter Olympics. A different city has the Summer Olympics every four years. The Games are during two weeks of

July or August. Then the same city has the Paralympics. It's an event for athletes who have got special bodies. American swimmer Jessica Long, for example, hasn't got legs, but she has got lots of medals.

The Winter Olympics are in February or March two years after the summer events, in a different city. There are 28 Summer Olympic sports. Some of the oldest Olympic sports are boxing and running. Tennis and the martial art taekwondo are two of the newest ones. Jamaican runner Usain Bolt is one of the most famous 21st century Olympians. He has longer legs than the other runners. He's also very tall – 1.96 m – and his arms are well-built. Bolt is the fastest athlete in the world. He can run the 100 m in 9.58 seconds and the 200 m in 19.19 seconds. He has Olympic gold medals for both events.

There are 15 sports in the Winter Olympics. Ice hockey is one of the most popular of all. It's also one the hardest, because it's so fast. The Canadians, Czechs, Finns, Russians, Slovakians, Swedes and Americans are the best ice hockey players of all. The sport is a favourite hobby in their countries. Cold countries have got the best winter sport athletes. But Spain has got just two medals from 60 or 70 years of Winter Olympics!

Listening Multiple matching (Monologues)

Study skills

Multiple matching

Read the rubric, then read the information to familiarise yourself with the content of the recording. While you listen be careful because each speaker can use words from the statements which may mislead you.

5 a) Read the rubric and the information. What will each speaker talk about?

You are going to listen to four people talking about sports and hobbies. Listen and match the people (A-D) to the sentences (1-5). One sentence is extra.

	Which of these people	Α	Antony
1	can play basketball well?	В	Becky Chris
2	is good at football?	D	Donna
3	isn't good at playing music?		
4	is good at painting?		
5	can play cricket well?		

b) Now listen to Speaker A and read what he says. Which sentence (1-5) does he match?

I'm Antony and I'm from Brazil. Most people in my country are good at football, but I'm not. My favourite sports are basketball and cricket. I can't play cricket well, but I'm very good at basketball. I'm in the school team.

Read the script again. Which words from statements 1-5 does he use?

c) Oo the listening task. Compare your answers to your partner's.

Writing (Writing Bank 1: informal letters p. WB1)

6 a) Read the rubric and look at the words in bold. Answer the questions.

This is part of a letter from your English pen friend, Marta.

What sport does he/she do? What does he/she look like? What about you? What's your favourite sport?

- 1 Who is going to read your letter?
- 2 What information should you include?

Writing Tip

Gorodky

Gorodky is an ancient Russian folk sport that is still known in Russia today. There are different forms of gorodky and most villages have got their own name for the game. However, the basic idea is the same and it is very like bowling. You can play gorodky on any flat surface such as a grass lawn or a town square or a road. The equipment for the game is very simple. The players have a bat and groups of wooden pins, skittles. The rules of the game are a little different in the various villages across the country but the objective is to knock the skittles with a throw of the bat. The winner is the team or player that is the first to have no skittles standing. Gorodky is a great game and lots of fun.

The Floating Islands of Lake Titicaca

What is it like having a different view from your window every day? Well, it's just like this for the Uros people of Lake Titicaca in Peru. There are over forty 'floating' islands here. Every day they are in a different place on the lake which is 3,812 metres above sea level.

These floating islands are home to about 300 people. Their surface is very soft and wet because they make the islands with totora reeds. There are small villages with three to ten families on each island.

Uros homes are small reed huts with one room. There is only one bed for the whole family. There isn't any heating and it is sometimes very cold on the lake.

Life on the islands is very simple. The men are fishermen on the lake. They have reed boats with amazing animal faces to go fishing. The women are at home with the children. There's one school for the children but there isn't a hospital or doctors nearby.

These days, the islands are very popular with tourists. It's only a 30-minute motor-boat ride from the city of Puno to the islands. Everyone is welcome to experience this unique way of life!

Hi Sam,

There's a party at my house for my 13th birthday. It's at 5 pm on Saturday, 20th November. My address is 22, Forest Street.

Here's how you can get there. Take the underground to Central Station, go up the stairs and come out of the station onto High Street. There is a supermarket opposite the station. Turn left at the supermarket and walk along the street. Walk past the baker's. Turn left at the pet shop, then you're on King Street. Walk across the street. Then turn right at the next street. That's my street. My house is next to the florist's.

Be there!

Children in England attend secondary school between the ages of 11 and 16. They learn a lot of different subjects like English, Maths, Science, Geography and Art. From the ages of 14 to 16 all pupils study for their GCSEs. These are qualifications that pupils can use to get a job or go on to further studies.

Most schools in England have a school uniform. The uniform usually has the school's colours. Children go to school during the week and have up to 8 lessons a day. What's for Breakfast

hat's it like to wake up in the morning and see Lynne, a 5-metre tall Rothschild giraffe, staring through your window? It sounds **strange**, but this is a **normal** morning at the Giraffe Manor, a hotel in Kenya, Africa.

Every morning before 9 o'clock, the giraffes walk over and put their heads through the open windows to see what's for breakfast. In the wild, giraffes eat leaves and twigs, but here at the hotel they prefer a slice of toast and some orange juice. These playful creatures are like members of the family. Each

one has its own name and personality. Lynne is the leader and loves treats from the guests. Arlene likes hugs while Barney is like a typical teenager – even though he's only 3.

The hotel is also a conservation project. The Rothschild giraffe is a rare animal with only a few hundred left in the wild. On the 140-acre estate there are also exotic birds and antelope. The owners and the staff do their best to make their guests feel welcome. Giraffe Manor is a place that promises an amazing experience and lots of photographs with its gentle creatures.

Vocabulary School & school rules

b) Cisten and say.

The students at this school study circus skills such as acrobatics, clowning, trapeze, and tightrope walking. They also study dance, theatre and music and take part in many performances and tours.

Students don't spend all day flying through the air though! They have to work hard at all the normal subjects, like Maths and Science, too. There are also rules like at an ordinary school. Students have to be on time, wear a school uniform and switch their mobile phones off in class (they sometimes don't have to switch off their MP3 players, though!). Also, they don't get into the school easily. They have to do a circus skills course and then the school chooses its students.

COOL JOBS:

Veterinarian - Sam Martin

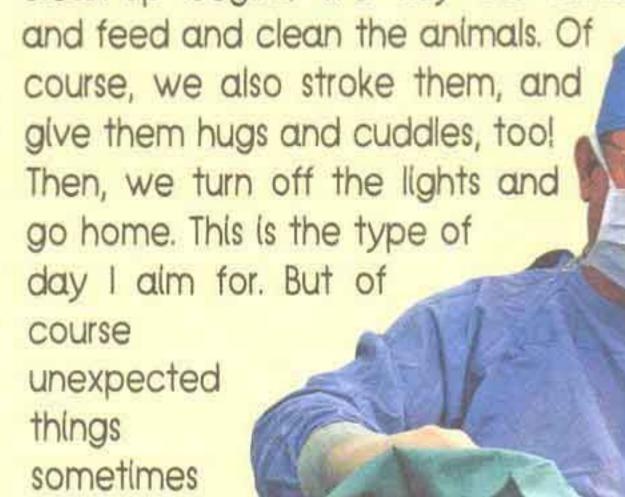

It's fun being a vet. I like it because although it is hard work, every day is different! It all depends on what is wrong with the animals that come in.

At my clinic, I work long days on Mondays, Wednesdays and Fridays, and short days on Tuesdays, Thursdays and Saturdays. Sunday is my day off so I can spend some time with my family. My day at my clinic begins at 7 am. My receptionist opens the door, turns on some music, and makes everyone a cup of tea or coffee. My assistant cleans and feeds the animals. The phones start to ring, and people make appointments. This is a very busy time of day!

At 9 am, pet owners start to arrive with their sick pets. Appointments take up the whole morning. At midday, I stop for 2 hours. I don't examine any new animal patients. I use these 2 hours to have lunch and do all my paperwork.

At 2 pm, I start to see sick animals again. At 5 pm, three students from a local school who love animals arrive to help out. I am always happy to see their smilling faces!

From 5 pm to 7 pm, I continue to see animal patients. Then, at 7 pm, we close our doors and the clean-up begins! We tidy the clinic,

What are you going to make for breakfast tomorrow? What do people eat in other parts of the world?

Japan: A traditional Japanese breakfast includes a bowl of soup and some steamed rice. People serve these with some fish and vegetables, together with a cup of green tea. Good manners are very important at the table; the rice should always be on a person's left-hand side and the soup on the right.

The United Kingdom: The typical English breakfast is a 'fry-up that includes a lot of fried food, like eggs, mushrooms, bacon, sausages and tomatoes with baked beans! They serve it with a few slices of toast and some butter and a cup of tea to finish. Not many people eat a 'fry-up' every morning. When they wake up tomorrow, most Brits are probably going to eat a bowl of cereal.

Poland: Polish people like a breakfast spread with a lot of choice. Fresh bread and creamy butter are essential. They prepare scrambled eggs, cold meats, sliced tomatoes and many different types of cheese for the breakfast table. They even have a soup made from milk. These days people can also have some yoghurt or cereal. Strong coffee or a pot of tea is always available.

- 2 I can't wait to see you.
- 3 We miss you.
- 4 We are watching the parade now.
- 5 I do not want to leave!

TUNDRA CLIMATE

Cold weather and low temperatures

characterise the tundra climate all year round. The winter season is long and hard. A short summer season exists. It lasts about 6 to 10 weeks and temperatures reach -1°C. The sun shines almost 24 hours a day during this season so people call the tundra "the land of the midnight sun". During the long winter months it is dark most of the day and temperatures drop to -35°C. No plants can survive in the tundra.

HOT DESERT CLIMATE

Deserts are usually very hot all year round with temperatures over 46° C. They get very little rain and have very long dry periods. At night temperatures drop to below freezing. Only plants that hold in a lot of water can survive in hot desert climates.

Complete the sentences with words from the check the words section.

Making decisions & justifying choices
Read the rubric carefully and look at the
visual prompts. Think about the pros and
cons for each situation and make your
decision. Always justify your answers.

Netwell 1998

Honey is a natural sugar. It is the only sweetener that is not manmade and it contains all the ingredients our bodies need. In short, it is a super food. Read on to find out why.

Healthy Option

Sugar is bad for us because it can upset our stomach and make us fat. But, because honey is natural it can actually make an upset stomach better. It is sweeter than sugar too so you don't have to use as much of it. It can also help us fall asleep and burn fat. In fact, eating honey means that you can burn fat while you sleep.

Instant Energy

Honey gives us an instant energy boost, too. Athletes use it when they train because it stops them getting tired after exercise. People who can't get going in the morning should have some honey on their toast instead of jam or another sugary spread to give them some added energy to start the day.

Natural Doctor

When you are ill or hurt maybe you should check your kitchen cupboard before calling the doctor. It can help a sore throat and stop coughing better than most medicines. Also, believe it or not, it can heal wounds and burns and stop the itching of insect bites. Plus eating a little honey every day can actually stop you getting infections.

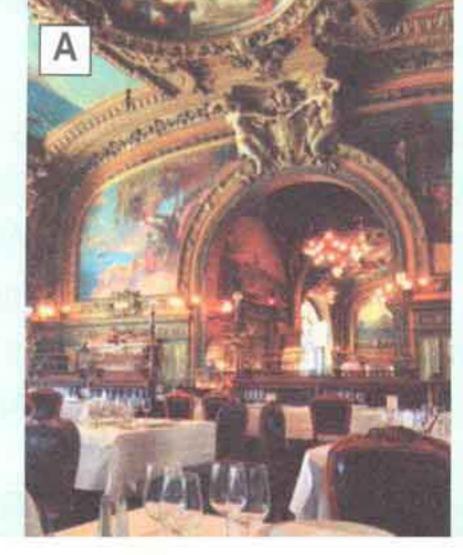

It's no wonder then that so many people use this gift from nature but remember a little goes a long way. Because of its sweetness you don't have to use very much to still get all that natural goodness.

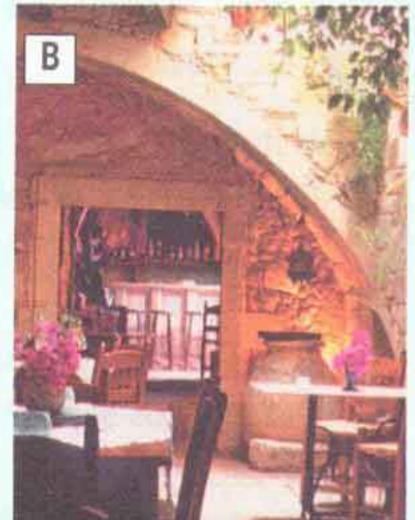

Did you know?

- · Honey bees never sleep.
- A jar of 2000 year old honey from an Egyptian tomb still tastes good today.
- One bee only produces about 1/12th of a teaspoon of honey in its lifetime.

Pompeii was an ancient Roman city near Naples and Mt Vesuvius, a volcano in Italy. It was a busy city and its narrow streets were often full of people. In the centre of the city there was a large marketplace and a forum. There was a large amphitheatre and two smaller theatres where people watched performances. There were also temples and public baths and many buildings had running water. The town had bakers', restaurants and even a hotel. Unfortunately, it wasn't a very lucky city and in 79 AD the eruption of Mt Vesuvius destroyed it and buried it under ash.

ANCIENT EGYPTIANS

Ancient Egyptians lived along the banks of the River Nile in northeast Africa. Pharaohs ruled this great and powerful empire for more than 2,500 years.

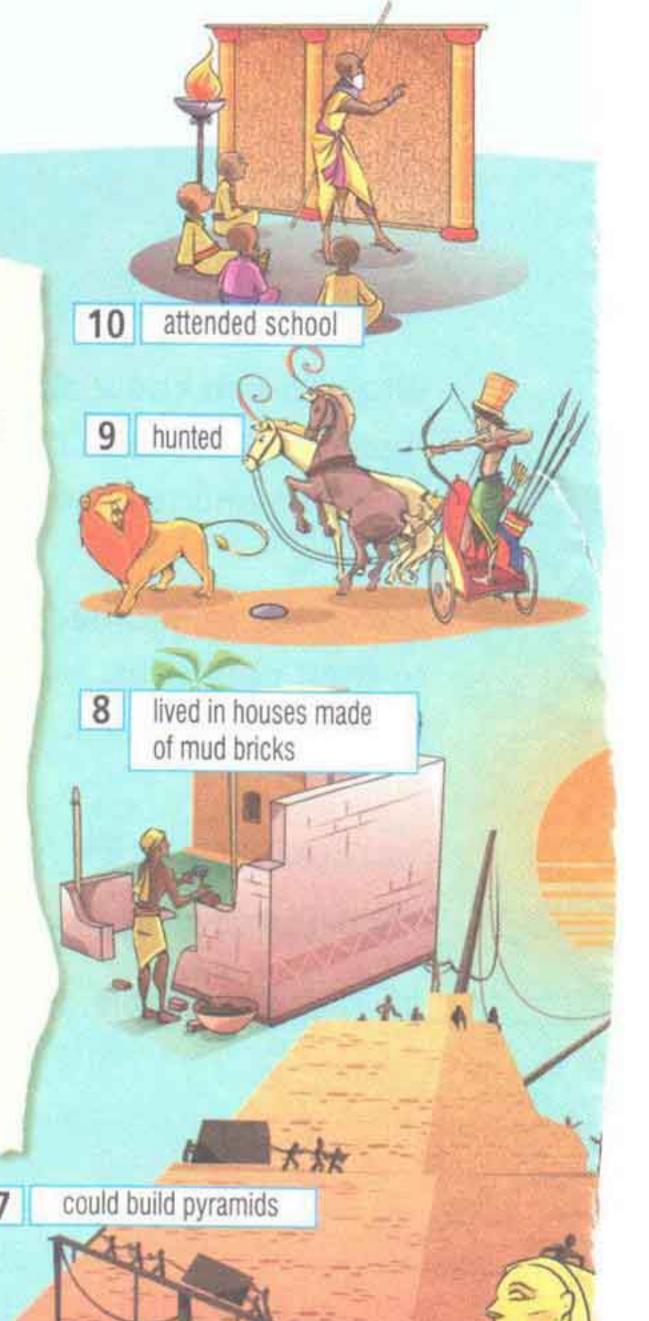

The ancient Egyptians lived in houses made of mud bricks, but they also built houses and gigantic pyramids from stone. They worked as farmers and artists. They hunted for animals and went fishing on the River Nile. They also had boats and transported food and other goods along the river. In their free time they played music or board games. Only wealthy boys could attend school. They studied hieroglyphics*.

Ancient Egypt had a great civilisation which many people still study and admire today.

Life in the UK

MUSIC & DANCE

Music was very important to teenagers in the 1960s. They were crazy about music and they listened to their favourite rock and roll bands, like *The Beatles* and *The Rolling Stones*, on the new radio station, BBC Radio 1. Young people also enjoyed dancing in the '60s. They wore the latest fashions at the dance halls and danced all night long.

FASHION

The 1960s fashion fads were cheap and colourful.

Teenagers made their own clothes. Girls wore short mini skirts and tall boots. A lot of people were shocked when long hair became fashionable for boys. The colourful, floral prints of the 'hippy' style were also popular.

FILMS & TELEVISION

Spy films and TV shows, like James Bond and The Avengers, were

big hits in the cinema and on TV. Most people had a television at home in the '60s. Programmes like *Top of the Pops*, which showed live pop music, were the craze. In 1969, families all over the UK watched Neil Armstrong walk on the moon!

It was 24th July, 1911. Hiram Bingham, an American archaeologist, was in the Andes Mountains in Peru. Suddenly he saw walls of stone in front of him. He couldn't believe it! Was this the lost city of Machu Picchu?

Machu Picchu is an ancient Inca site in the Andes Mountains in Peru. It dates back to 1436. But what was it exactly and why did the Incas build it so high in the mountains? No one is really certain.

Bingham found amazing things in Machu Picchu. He discovered stone buildings with thick walls, homes for the people and a beautiful palace for the emperor. There was even a huge pyramid. The city also had a tall tower, temples, storage rooms, baths, about 150 houses and a park. It had running water and water fountains. All the buildings were very strong. Even earthquakes didn't destroy them!

The Incas were clever people and they knew how to do many things. They weren't only great builders and astronomers. They were also good farmers. They constructed terraced fields around the city and they grew potatoes, corn and cocoa.

Machu Picchu was a great city. Hundreds of people lived there. Then, one day, they left, and no one really knows why.

The name Machu Picchu means 'old mountain'.

5 Legendary Figures

Mentingician the magician

Merlin is one of the most fascinating figures in British mythology. He was a wizard, a poet, a teacher and an advisor to kings. His story is full of mystery and magic.

Today, we think of Merlin as a wise old man with a beard and a cloak who had magical powers. Ancient myths describe him as being half human; the son of a woman and a demon, and they say he could turn into a bird or cloud!

In the 6th century the Kings of Britain were fighting great battles with foreign enemies. News of Merlin's intelligence and magical abilities reached King Uther and he became the King's advisor. One day, Merlin had a vision that the King's son, Arthur, was in great danger. Merlin advised the King to send his son to live in the forest. As the young Arthur was growing up in the forest Merlin became his guardian and teacher. When Uther died, the noblemen of the country started fighting each other for the throne. To put an end to the fighting Merlin created a contest to choose the new king. He stuck the magic sword, Excalibur, into a large stone and said whoever pulled it out was the true King. All the strongest men in the land tried to free the sword but failed. Then Arthur, who was looking for a sword for a local tournament, saw the sword and lifted it out easily. He became king and made Merlin his special advisor.

Even today, people wonder if Merlin was more than just a character of medieval stories. Real or not, Merlin continues to fascinate people whenever they hear his story.

When the Europeans arrived on the continent they called America in the 15th century, many different native tribes already lived there.

These people respected the environment and their ways of life can still teach a lot to the modern world.

The Kwakiutl were fishermen. They had large wooden houses. Seven families could live in one house. They had canoes for fishing, hunting and trading. They used animal skin and even wood to make their winter clothes.

The Navajo were farmers and grew crops. They lived in houses made of earth and wood. They travelled on foot. Sometimes dogs pulled them on sleds. The women farmed, looked after the children and did the housework. The men hunted and protected the tribe.

At first, **The Cheyenne** lived like the Navajo. When the Europeans brought horses to America, they left their farms and moved from place to place. The men hunted buffalo. The women built their houses called 'tepees'. They used buffalo skin. They could take them down and move the village in an hour!

The Ancient Phoenicians

The ancient Phoenicians were a great civilisation that inhabited the east coast of the Mediterranean Sea. The Phoenician civilisation lasted over 1,000 years. It began about 1550 BC and ended about 300 BC.

The Phoenicians were the best shipbuilders and sailors of the ancient

The Phoenicians were the best shipbuilders and sailors of the ancient world. For more than 400 years, they ruled the seas! They were the first people to learn how to sail using the stars at night.

The Phoenicians were brilliant traders too. They sailed their ships around the Mediterranean, and sold things like wood and glass to the Greeks, Romans, and Egyptians. One special item that they traded made them very rich. It was a purple-coloured dye. Purple was the colour of royalty in ancient times. No one in the ancient world knew how to make purple clothes except the Phoenicians.

Historians think the Phoenicians were the first civilisation in the world to use an alphabet. They also think that all the alphabets in the world today come from the Phoenician alphabet. The Phoenicians invented an alphabet and a writing system around 1400 BC because they wanted to communicate with their trading partners in Greece, Rome and Egypt. It consisted of only 22 letters based on sound.

Once the Greeks and Romans saw the Phoenicians had an alphabet, they learnt it. They wanted to make sure the Phoenicians didn't cheat them out of money! Soon afterwards the Greeks developed their own alphabet. That consisted of 24 letters. The Roman alphabet evolved from the Greek alphabet in the 7th century BC.

Catherine the Great

Catherine the Great was born in Stettin, Prussia (now Szczecin in Poland), on 2nd May 1729. Her father was Prince Christian August of the Anhelt family. He was a Prussian army officer and was governor of Stettin.

In the 18th century wealthy children had their own private teachers and so Catherine received a lot of her education from her French nanny Babette. She learnt French, German, History, Religion and Music.

When Catherine was fifteen she went to Russia where she met and married the Grand Duke Peter in 1745. In December 1761 Peter III became Emperor of Russia and Catherine his empress. Only a few months later, she became the sole ruler of Russia.

During her reign, Russia became one of the great powers of Europe. Catherine developed the arts and sciences in her country. Under her direction, St Petersburg became one of the world's greatest capitals. It was a fantastic period for theatre and music. Catherine II also improved the country's educational system.

Catherine died of a stroke on 17th November 1796. During her reign she made Russia a great nation.

Hi Anna!

I'm having a brilliant time here in Perth, Australia! I've been here for a few days now and I've already taken a ferry ride to see the city skyline. I took some great photographs. I've also made a dream come true because I've swum with dolphins! It was an amazing experience! The water was so clear, and the dolphins swam really close to me. They were really happy and friendly. It was the highlight of my trip! Best wishes,

Paul

Hello David,

Greetings from Egypt! What a country! There's so much to see and explore; history really comes to life here. I've already been sightseeing and taken loads of photos, but you'll never guess what I've done today! I've ridden a camel! We were in the desert with the Pyramids behind us. What an experience! I'll never forget it. Tomorrow, we're going on a river cruise down the Nile, travelling south. After that, we're taking a helicopter ride over the source of the Nile. I'm so excited! Speak to you soon, Sarah

Hi Mark,

It's really beautiful here in Sicily, Italy. It's a really interesting island, with a great climate and beautiful coastlines. I'm cycling around the island in order to experience as much of it as possible. I've seen some fantastic ancient ruins, and have gone swimming on beautiful beaches. I've also climbed up Mount Etna. It's the largest active volcano in Europe and it can get pretty hot up there! It was a thrilling climb. Sicily has been a fantastic experience, I definitely won't forget it. Bye for now,

ames

THE TENT experiences

I've just come back from Europe. I really enjoyed it! But something very weird happened in London. One day, I was at Marble Arch and I decided to get on a London bus. Seconds later, a bus arrived. I was so excited; it was an old-style, red, double-decker bus! It was also a number 7, my lucky number, so I jumped on board. There were only two elderly ladies travelling; one smiled at me. The bus went through a strange part of London. There were very few cars around and all the streets, houses and even the people looked old-fashioned. The bus didn't stop anywhere. Ten minutes later we were back at the Marble Arch again. I got off the bus and went

> to my hotel. The receptionist gave me my room key. "Have you been anywhere nice today?" she asked. I told her about my tour on the number 7 bus. She looked surprised. "That's very strange," she said, "the number 7 bus hasn't run since 1958!"

THINK! Which experience impressed you the most? Why? Tell the class.

Wow! That's so strange. Have you ever seen a ghost? I think I have! I was in San Francisco. My friend John and I took a ride on one of the famous cable cars. We were the only people travelling when a beautiful woman of our age got on. She was dressed in a very old-fashioned grey suit. She wore her blonde hair in a bun and she carried a small bouquet of roses. She looked like someone from an old photograph. She was very still and lost in thought. John asked me to take some photographs because the view was amazing. I only looked out of the window for a moment, but when I turned back, the woman wasn't there. I asked John about her. John gave me a very puzzled look. "What woman?" he asked. But I know I saw her.

FORUM: Embattassing moments

A lot of us just can't live without our gadgets. In fact, we are so caught up in texting, tweeting, surfing and updating our Facebook statuses that we are unaware of what is happening in the world around us. Although gadgets are very useful, sometimes they can get us into trouble.

Post 7 of 36 Lauraloo

l've had a few awkward moments while using some of my gadgets.

Last year 1 moved to London to go to university. My dad bought me a GPS receiver so 1 could find my way around town easily. One evening 1 decided to use it to walk to a restaurant with my new friends.

Everyone followed me eagerly. But after walking half an hour we found ourselves at the same spot. I was puzzled. Suddenly one of my friends pointed across the square. There was the restaurant.

Then I understood. The GPS receiver was on driving mode and took us through all the one-way streets to reach the restaurant!

I bought this really cool smartphone one day when I was out shopping. 4 I took it out of its box and started playing around with it. It has an excellent menu and loads of applications but it was all new to me then. I was so busy going through the menu when suddenly I walked smack-bang into someone and their ice cream went all over me. Social Edicuette Around the World

If you have never travelled abroad you may not know that what is polite in one country could be very rude in another! Here are a few things you might like to know about social rules around the globe.

Has anyone ever told you it's impolite to point at people? In Malaysia it is rude to point at someone with your index finger. People use the whole fist and thumb to show direction. In the Philippines, people only point by moving their eyes towards a person or thing, or even by pursing their lips and pointing with their mouth.

It may surprise you, but many Chinese people will look at the ground when they greet you. It is a way to show respect. In Europe and the USA people use lots of eye contact to be polite and friendly but in China, it is rude to make eye contact with strangers and Chinese people try to avoid it.

In Europe and the USA people have always shaken hands with a firm grip to show strength of character. If you have ever visited Turkey, you will know that for Turkish people, a firm handshake is very rude and it is seen as a sign of anger.

Flowers are a very thoughtful gift, but here's some advice. If you are going to Poland don't arrive at a party with yellow flowers known as chrysanthemums. They are used at funerals! In Italy, people have long believed that yellow flowers indicate jealousy, and red ones show secrecy!

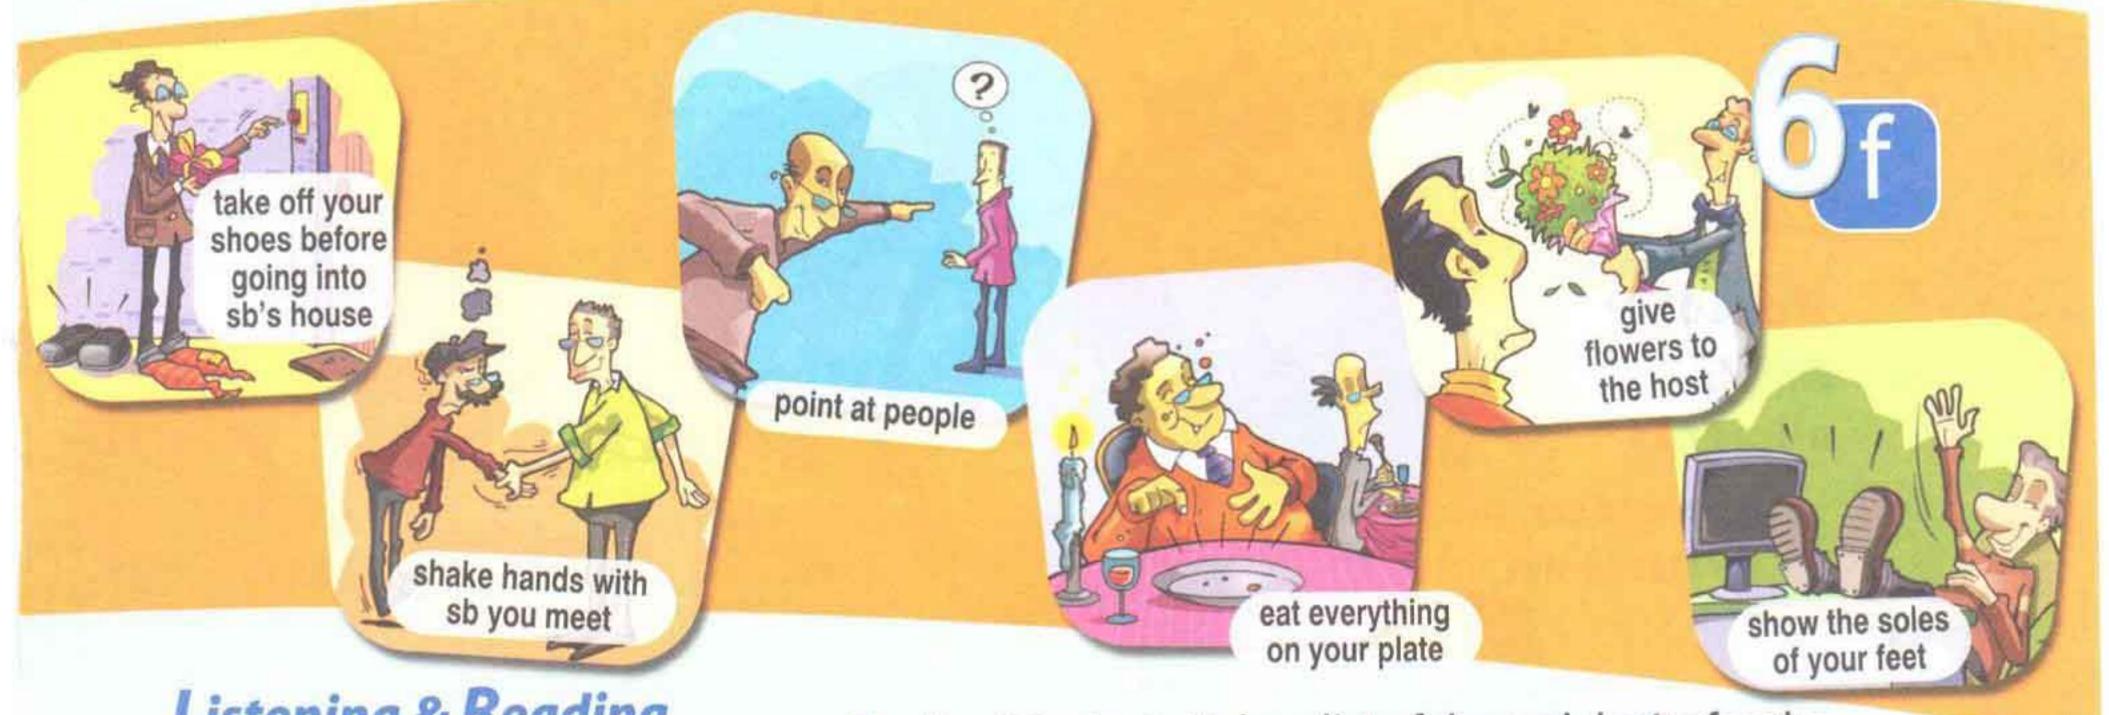

Which of the actions in Ex. 1 do people in your country consider impolite?

In my country it's impolite to burp after a meal.

Thinking about visiting Bulgaria? If so, then it can really help to remember the following: in Bulgarian body language, nodding your head up and down means no, while shaking your head from side to side means 'yes'! So be careful how you move your head.

Don't get confused! In some parts of the world it's polite to eat all of the food on your plate at dinner but in China and Korea you should leave something. This shows that you were given enough food by your host. If you eat everything, your Chinese host feels obliged to offer you more. That is because he thinks you are still hungry!

Form: to be + past participle of the main verb

We use the **passive** when we don't know who carried out an action or when the action is more important than the person who carries it out.

Present Simple

Active: People send chrysanthemums to funerals.

Passive: Chrysanthemums are sent to funerals.

Past Simple

GIOSE Encounters by Jim Hewit Encounters

Last summer my brother Travis and I decided to go camping. The mountain trail was not easy.

An hour later we found the perfect spot and put up our tent. Then we both looked for firewood. Suddenly we heard a strange noise. It was a low moaning sound, as if a creature was in pain. We froze. The noise became louder so we dropped the wood and ran as fast as we could back to our tent. Unfortunately, Travis tripped on a rock and twisted his leg. I dragged him back into the tent and then I called for help.

Thirty minutes later a ranger came to pick us up. We felt relieved. Travis ended up with a sore ankle. We never found out what that noise was.

Mobile Phone Network

Millions of people around the world use mobile phones to keep in touch with friends and family, and there is an 80% chance that you've got a mobile phone in your pocket or bag. Have you ever wondered, though, how a mobile phone network works?

A mobile phone is actually a sophisticated radio that uses radio waves to communicate, like a really good walkie-talkie. A walkie-talkie uses one channel and one **frequency** so only one person can talk at the same time. The mobile phone uses two frequencies, one for talking and one for listening, which means both users can talk at the same time; and it can use over 1600 channels.

When your mobile phone is on, the phone communicates to what we call a base station. A base station is a special antenna which can be on the top of a building or a communications tower. There are usually hundreds of base stations in cities all over the world. Sometimes telephone companies disguise their base stations so you don't even notice them. Each base station is at the centre of an area called a cell. All calls and messages in that area go to the cell's base station where a special base station controller transmits the call. Controllers can only take a certain number of calls at the same time so if a lot of people call, some of them may not be able to get through. This doesn't happen very often though because there are antennas everywhere. Keep an eye out for them!

It is possible to locate a mobile phone user to a couple of metres anywhere on the planet.

You are going to hear five students talk about volunteering. Read the sentences (A-F) in Ex. 1d. In pairs, paraphrase each sentence.

e.g. A = had a good time but was ready to leave / had fun but didn't want to stay longer ...etc.

- Now listen and match the speakers (1-5) to the sentences (A-F) There is one extra sentence.

Speaking

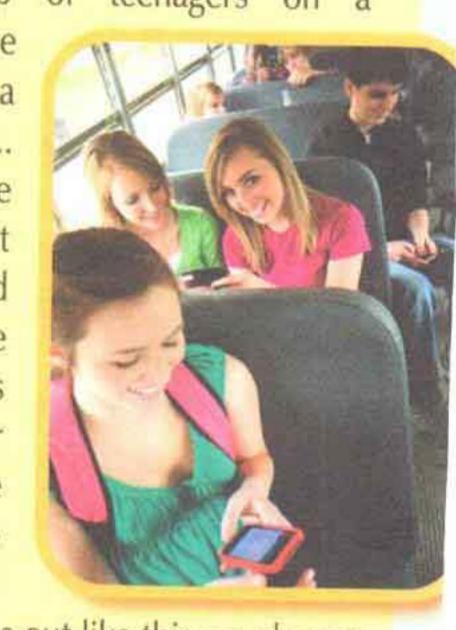

Study skills

Talking about a picture

Start by describing the picture as a whole (e.g. where, what), then go into more detail (who, how, what kind, how many, etc.). End by speculating about the scene. This will show you can go beyond a simple description.

Look at the picture and complete the gaps. Listen and check. Underline the sentence which speculates on the scene.

The picture shows a group of teenagers on a 1) There are three girls near the front and a boy sitting 2) them. Others are sitting at the back. The girls are wearing bright 3) clothes and smiling. They and the boy are 4) texts or playing games on their mobiles. They all seem to be enjoying themselves so they are probably on a school trip

somewhere. I personally find days out like this a welcome 5) from the dull routine!

b) In pairs, make your own speculations about the scene.

e.g. Where are they going? What are they thinking? How do they feel?

Describe the photo.

Now answer the questions:

- Do you think the people in the photo are enjoying their travel experience? Why (not)?
- What was your favourite travel experience? Why?
- What is your least favourite means of transport? Why?
